## **ROYALE™ FOLDING CRIB PROVIDES LUXURY TO HOTELS MOST PRECIOUS GUESTS**

Medina, Ohio – Foundations® Children's Products, the leading supplier of cribs and accessories to hotels worldwide, today introduced the new **Royale™** Folding Crib. "The **Royale™** is an innovative convenience crib that has raised the industry standard for style, comfort, and safety. Every feature of this crib was thoughtfully designed to make it the foremost wood folding crib available in the marketplace," said Foundations manager of design and engineering Robert Houry.

The **Royale™** Crib offers rich, luxurious styling while providing a safe sleeping environment. Its unique center-fold design enables folding without disassembling to minimize misuse or missing parts. Invisible recessed drop-side hardware gives the crib a sophisticated look and provides easy access to the infant. Two-inch deluxe, hooded casters in antique bronze complement both the cherry and natural wood finish options. The **Royale™** Crib comes with a durable 4-inch thick, high density foam mattress that can be stored in crib when folded. Available in both compact-size and full-size configurations, the **Royale™** Crib meets the diverse needs of hotels. "One of the hallmarks of the **Royale™** Crib is its' two-year no hassle warranty. As a result of its exceptional quality and functionality we can offer an extended warranty even in a commercial environment," said product manager Liesl Emrikian.

The **Royale™** Crib was developed in response to interest from major hotel chains that we currently supply, and who wanted a product more suited for their discriminating guests at four or five star properties. "Private previews with upscale, landmark properties, all of which have now committed, are excited about how the **Royale™** Crib has filled the void," said Emrikian.

The **Royale™** Crib meets or exceeds Consumer Products Safety Commission (CPSC), American Society for Testing and Materials (ASTM), Juvenile Products Manufacturers Association (JPMA), Canadian crib safety standards, and 16 CFR 1633 Flammability Standards.

For more information on the **Royale™** Folding Crib line please contact 877-716-2757 or visit our website at [www.foundations.com](http://www.foundations.com).

###
